

6410 METER BAR

IT'S ABOUT TIME!

A By-Pass System that Makes Sense.

Introducing our **6410 Series By-Pass Meter Bar!**

(patent pending)

FULL FLOW EVEN IN BY-PASS MODE

- No interruption in service or reduction in flow capacity.
- No loss of pilot lights.
- Scheduling, re-lights, and associated cost are a thing of the past.
- Meter change-outs can be performed anytime, 12 months a year.

SAFE - FAST - SECURE

- No need for additional hoses, regulators, bottles, or any special tools.
- Your gas supply is always ready & regulated to the correct pressure.
- A few turns of the valves and your by-pass is complete.
- Industry proven locking design for theft protection.
- Performance testing completed at gti.

It is about Time, and Time is Money.
