1. Keep expander clean and free from dirt and debris.

2. Use a snug fitting smooth jaw wrench on the wrenching flat nearest the tightened end.

3. Always use an approved sealant or teflon tape on tapered pipe threads.

4. DO NOT use Vaseline®, plumber’s grease, or any other petroleum based product on seals or O-Rings.

5. USE ONLY ON COLD WATER SERVICES.

6. Notches indicate locking positions to line up with screw.

7. Locking screw uses left hand threads and proprietary key (sold separately).
